

CSI Focus Workshop 2011:

# TREND ASIA PACIFIC

Tanscatheter Renal Denervation  
September 24, 2011 | Hong Kong

TREN Asia Pacific  
September 24, 2011  
Hong Kong

## Dear Colleagues,

We would like to invite you to TREN Asia Pacific 2011, a workshop on Transcatheter Renal Denervation. This is a new catheter-based treatment for arterial hypertension. It has been shown to be very effective and safe in a randomized trial and will become available for clinical use within the next few months.

All aspects of this procedure from the physiological background to "how to perform it" will be covered. The live case transmissions offer the opportunity to demonstrate the step by step procedure.

**Selected colleagues will be invited to join us in the cathlab to have a close up view.**

The CSI TREN Asia Pacific workshop will take place in **Hong Kong on September 24, 2011.**

Please note that the number of participants is limited so book your place in advance!

I look forward to see you in Hong Kong

Kind Regards

Horst Sievert
